

IN4IN CONFERENCE 2023

USE OF DIGITAL TOOLS FOR ENTREPRENEURSHIP COACHING AND TEACHING

The **SEPT Competence Center** at Leipzig University invites you to the **iN4iN Conference 2023** with a focus on two projects targeting digital innovation: **MELES-Bot** and **E-Coach**

In a rapidly moving world where so many of our day-to-day activities are now online, it has become essential for Higher Education Institutions (HEI) to further develop coaching processes to better suit students' needs and learning environments. Electronic coaching (e-coaching) is an inevitable methodology for every lecturer who coaches, mentors, teaches, and supervises students and graduates. Therefore, our iN4iN Conference 2023 focuses on the use of digital tools to support our clients at HEI in a sustainable and time-efficient approach.
